

A Word From Gavin Cooper

Welcome to the first official newsletter from TTP....

It feels like only yesterday that I wrote saying how busy it had been during the months leading up to Christmas & now summer is here and it's been busier than ever. The changes since Christmas have been enormous and the rate of growth for TTP has been incredible. Our investment has continued and we have four new facilities and plans in place for even more over coming months.

This continued success and impressive growth has only been possible with the support and hard work of the energetic, committed and rapidly growing team of staff and volunteers that Tom and I feel privileged to have on board. Your expertise and loyalty is what makes TTP, in my view, the best in the industry and your efforts mean that we can continue to grow and help more people to change their lives every day. Tom and I are immensely proud to be part of this amazing team.

Thank you

A Word From The Editor

This is your news letter and forum to share what's going on at your TTP Centre, so please email stories and info, updates and experience to editor@tppcc.org

There are now 7 TTP clinics across the country

Gavin and Thames Clinic manager Wendy Powell welcomed healthcare professionals to the six-bed detox clinic in Kingston-upon-Thames at a special breakfast event in May.

First graduation at The Wirral

The first graduation was a special day at the Wirral. Visitors to an open day heard Diane talk about her experiences after 21 years of addiction, including rebuilding a relationship with her daughter after 11 years.

The day also saw soul singer Tony Blaize officially open a new 'Serenity Garden' a piece of land that has been transformed from wasteground into a tranquil relaxation area by clients and volunteers who have designed and built the garden themselves.

A huge thank you to everyone who helped to organise or took part in events across the group. I know how much work goes into making these events happen and the great response we have had from all our visitors is proof of your success.

Daycare Programme for Addicts & Families
024 7603 3125
Funded by Coventry DAAT

The Clifton Clinic

Our Latest Acquisition

Last month we acquired the Clifton Clinic, an exclusive nine-bed clinic in a beautiful village in Bedfordshire from which we offer a 28-day residential rehab programme. Many of the existing staff will remain in place with some new TTP management. If you have a moment, please have a look at www.thecliftonclinic.co.uk to find out more about the latest addition to the TTP group.

Warrington celebrated 1st anniversary

Warrington has only been going for a year but it has already established a great name for itself. During National Tackling Drugs Week, we held an anniversary open day to celebrate the success of its many graduates. In the morning, www.inexcess.tv hosted a panel discussion with clients, visitors, staff, families and community workers looking at issues facing addicts, their families and the community. You can see it at inexcess.tv in the features section.
